

Peaches & Dreams – 92” x 104”

Blocks are 12” finished.

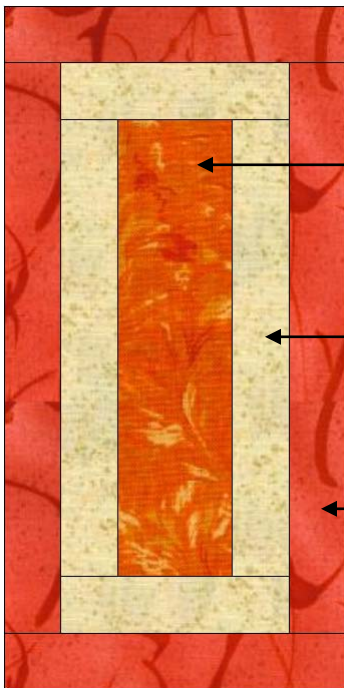

Border blocks are 4” finished.

The Block:

These sections can be made any size you wish but here's how I made mine:

For each block, make one of the following units.

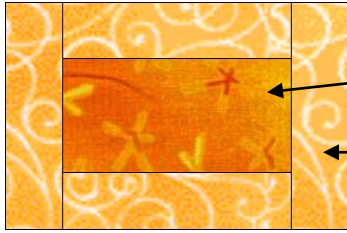

1 – 2-1/2" X 8-1/2" rectangle

Side strips are cut 1-1/2" x 8-1/2".
Top & Bottom strips are cut 1-1/2" x 4-1/2".

Side strips are cut 1-1/2" x 10-1/2". Top
& Bottom strips are cut 1-1/2" x 6-1/2".

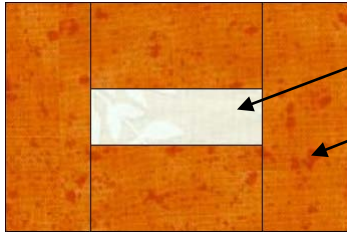

For each block, make 2 of the following units.

Cut $2\frac{1}{2}'' \times 4\frac{1}{2}''$.

Cut sides and top and bottom strips at $1\frac{1}{2}'' \times 4\frac{1}{2}''$.

For each block, make 1 of the following units. By making this one with the seams in different places, you can stick it in between the other two and there will be no seams to have to match.

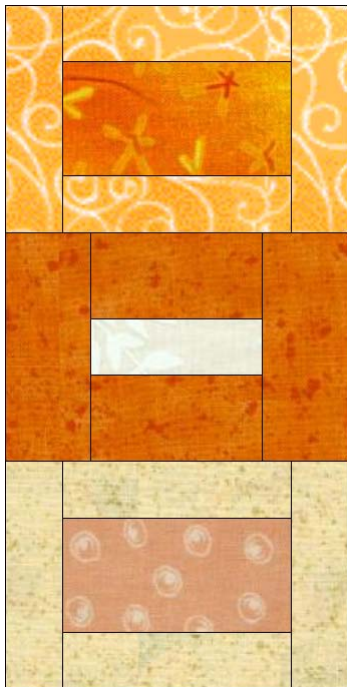

Cut $1\frac{1}{2}'' \times 3\frac{1}{2}''$.

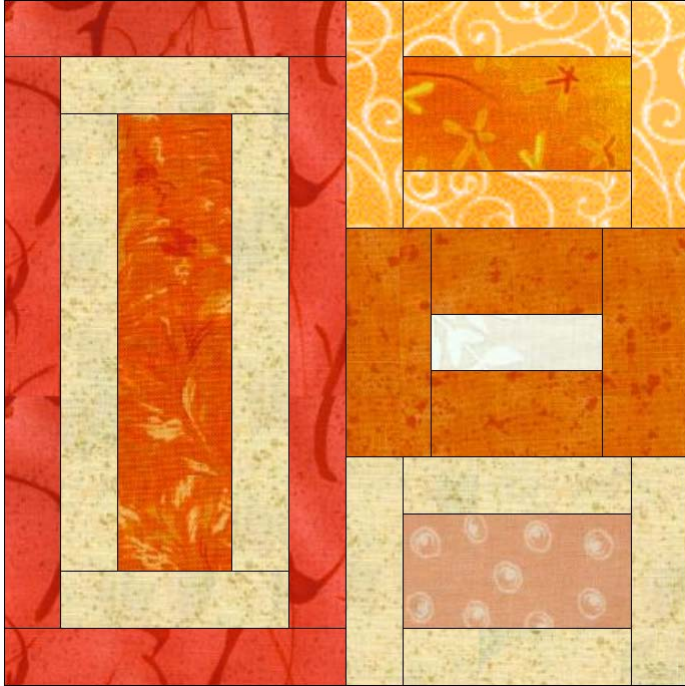

Cut the top and bottom $2'' \times 3\frac{1}{2}''$.

Cut the sides $2'' \times 4\frac{1}{2}''$.

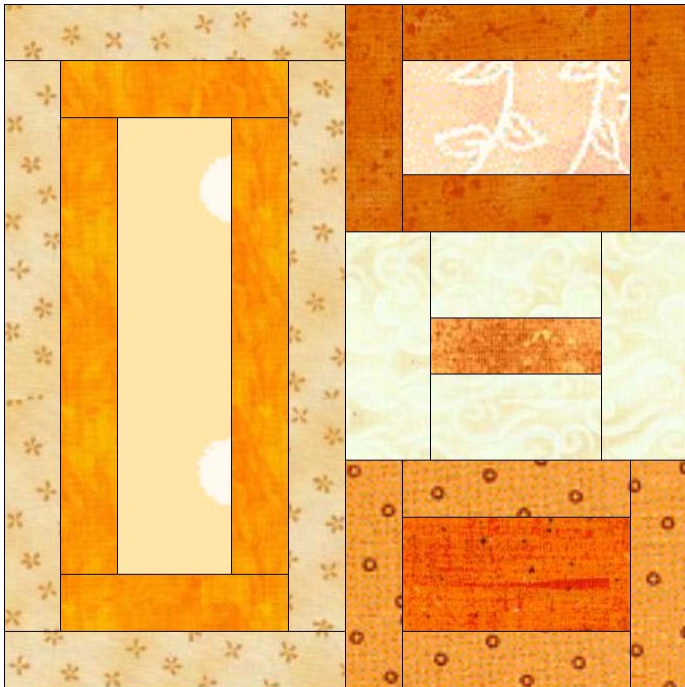

Sew those three sections together:

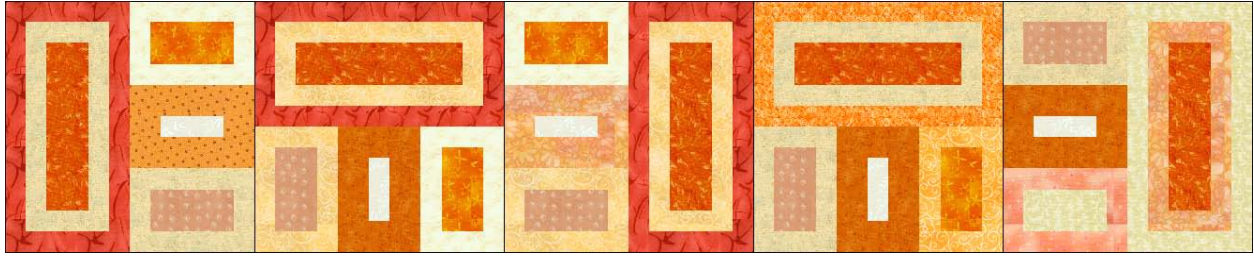

Sew to the larger section:

You can alternate colors (light vs. dark) in some of the blocks.

Sew the blocks together randomly, trying to avoid having the blocks facing the same direction next to each other. Make 6 rows of 5 blocks.

Once the rows are all sewn together, the top should measure $60\frac{1}{2}'' \times 72\frac{1}{2}''$, including seam allowances.

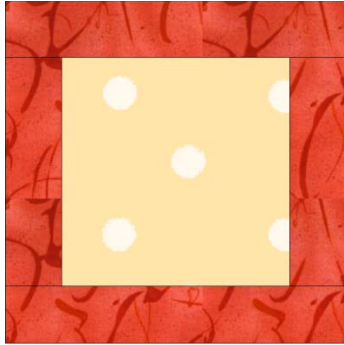

Borders – For all non-pieced borders, attach to the sides first, then to the top and bottom.

1. Sew the 2'' background fabric border strips together. The side strips should measure $2'' \times 72\frac{1}{2}''$. The top and bottom strips should measure $2'' \times 63\frac{1}{2}''$. After addition of these borders, the top should now measure $63\frac{1}{2}'' \times 75\frac{1}{2}''$, including seam allowances.

2. Sew the $1\frac{1}{2}''$ orange border strips together. The side strips should measure $1\frac{1}{2}'' \times 75\frac{1}{2}''$. The top and bottom strips should measure $1\frac{1}{2}'' \times 65\frac{1}{2}''$. After addition of these borders, the top should now measure $66\frac{1}{2}'' \times 77\frac{1}{2}''$, including seam allowances.

3. Sew the 2'' background fabric border strips together. The side strips should measure $2'' \times 77\frac{1}{2}''$. The top and bottom strips should measure $2'' \times 68\frac{1}{2}''$. After addition of these borders, the top should now measure $68\frac{1}{2}'' \times 80\frac{1}{2}''$, including seam allowances.

4. Make 78 – $4\frac{1}{2}''$ border blocks. The more variety used with the fabric, the easier it will be to put the borders together without having similar blocks next to each other. Use some light centers/dark borders and some dark centers/light borders.

Cut center square $2\frac{1}{2}''$. Cut side pieces $1\frac{1}{2}'' \times 2\frac{1}{2}''$. Cut top and bottom pieces $1\frac{1}{2}'' \times 4\frac{1}{2}''$.

Join 20 blocks for each of the side borders; attach to the top.

Join 19 blocks for the top and bottom borders. Attach to the quilt.

5. Sew the 2" background fabric border strips together. The side strips should measure 2" x 88-1/2". The top and bottom strips should measure 2" x 80-1/2".

6. Sew the 1-1/2" orange border strips together. The side strips should measure 2" x 92-1/2". The top and bottom strips should measure 1-1/2" x 82-1/2".

7. Sew the 3-1/2" background fabric border strips together. The side strips should measure 3-1/2" x 94-1/2". The top and bottom strips should measure 3-1/2" x 88-1/2".

8. Sew the 2-1/2" orange border strips together. The side strips should measure 2-1/2" x 100-1/2". The top and bottom strips should measure 2-1/2" x 92-1/2".
